

# The FarmSink

Big, Gutsy FarmSinks have Become the Rage.

Makers of NuCrete™  
The World's Only Stainless Concrete

With good reason, because these large, deep sinks can hold several pots and pans and still have room for a party full of dishes. Our FarmSinks are made in the traditional design with full aprons that usually stand "proud" of the counter and cabinets.

Unique to our FarmSinks is our ability to cast custom countertops for the entire kitchen to work in harmony with these popular sinks.

Deluxe models have an inlaid stainless steel bottom and are advised for kitchens that receive daily use.

FARMSINK
