The Steel BreakThru

What would you call a concrete basin that breaks through steel or glass - and through conventional design? Well? Also see the glass version.

Makers of NuCrete™
The World's Only Stainless Concrete

Breaking through not only a Mild Steel base, but also through conventional design. Looking at this unique vanity straight on, the name BreakThru becomes obvious as the bowl "breaks through" the steel base. From above, the bowl appears to float on this base and looking at it from any angle, the drain pipe is hidden. The necessary P trap is concealed in a wall access panel and the drain connection is hidden in the body of the breakThru. True simplicity, true magic. If that isn't enough, the legs are hand forged with highlighted hammer blows.

• DESCRIPTION

Breaking through not only a mild steel base, but also through conventional design. Looking at this unique vanity straight on, the name BreakThru becomes obvious as the bowl "breaks through" the steel base.

From above, the bowl appears to float on this base and looking at it from any angle, the drain pipe is hidden.

The necessary P-trap is concealed in a wall access panel and the drain connection is hidden in the body of the BreakThru.

True simplicity, true magic. If that isn't enough, the legs are hand forged with highlighted hammered blows.

• FACTS

Classic Concrete (diamond-sanded, sealed & waxed) or Stainless NuCrete™. 24 standard colors. See: www.sonomastone.com, catalog or techbinder. Custom colors available. Order samples online, or call 877-283-2400 x113.

Steel Countertop and hand-forged steel legs. Some Assembly required.

Accommodates wall faucets only.

Drain hole fits most 1-1/4" standard drain assemblies (not included).

For UPC (IAPMO) listing, see Appendix, p08-10.

Approximate Weight: 122 lbs / Crated 226 lbs. (including stand)

The Glass BreakThru

What would you call a concrete basin that breaks through steel or glass - and through conventional design? Well?

Makers of NuCrete™
The World's Only Stainless Concrete

The tempered glass BreakThru is a lighthearted gesture of whimsy and enigmatic kissing-cousin to the steely original.

Known to inspire both laughter and intrigue, this latter-day piece brings the age-old tradition of the VesselSink™ floating into the twenty-first-century.

In addition to Sonoma Cast Stone's warranty against cracking, this particular inspiration is also guaranteed to provoke both admiration and inquiry.

BreakThru (glass) BRKTHR-G

Designs ©2007 Sonoma Cast Stone Corp. All rights reserved.

Visit www.sonomastone.com to see photos of this and other products.

• DESCRIPTION

The original BreakThru on a hand forged steel base is gutsy and bold. It is ideal for that industrial look; ideal for lofts. Now, the same bowl on a safety glass counter takes on a much more refined look. From any angle you can see the bowl "breaking" through the glass. It is a masterpiece in minimalist design.

The drain connection is hidden in the body of the BreakThru. The necessary P-trap is hidden as it escapes into a wall drainage system. To service, a rear wall access or a front access panel is required.

Stainless or powder coated wall brackets are available as options.

• FACTS

Classic Concrete (diamond-sanded, sealed & waxed) or Stainless NuCrete™. 24 standard colors. See: www.sonomastone.com, catalog or techbinder. Custom colors available. Order samples online, or call 877-283-2400 x113.

Safety 1/2" plate glass counter.

Available with optional tubular stainless steel wall-mounted support arms (powder-coated colors optional)

Accommodates wall faucets only.

Drain hole fits most 1-1/4" standard drain assemblies (not included).

For UPC (IAPMO) listing, see Appendix, p08-10.

Approximate Weight: 84 lbs / Crated 188 lbs. (including glass countertop)
