

Residential WaveSink

Our WaveSink received the highest honor possible by being voted *Best New Product of the Year* by the 40,000 kitchen and bath professionals at the 2001 National Kitchen and Bath Show.

Water flows from a wall or deck mounted faucet into a distinctive slot drain for each basin and into concealed standard pipe fittings. Available as a single basin 36 inch wide, a master bath double basin or it can be modified for commercial applications of up to five basins.

WaveSinks are custom made in a wide selection of colors and can be mounted on standard cabinetry or *floated* between walls. The new P-Series WaveSink shown above, measures 36" x 22½" and is available on our own beautiful hardwood stand.

*Modified WaveSink complies to ADA Standards

WV-RES-2

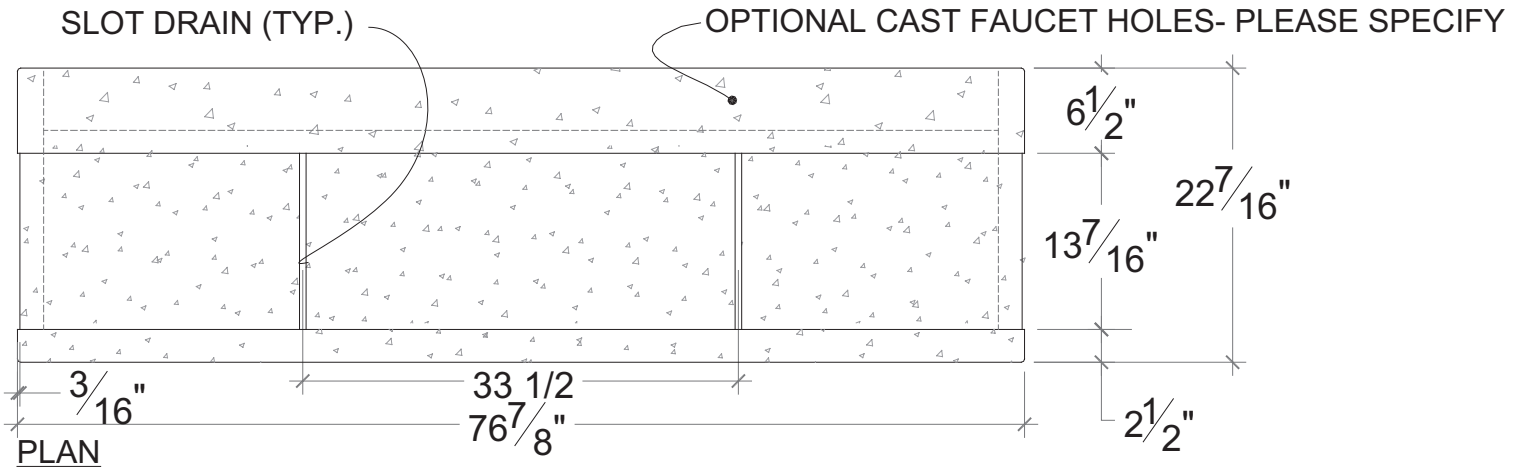

Double WaveSink

Residential

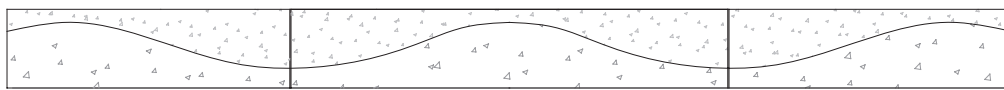

Can be modified for commercial applications of up to five basins.

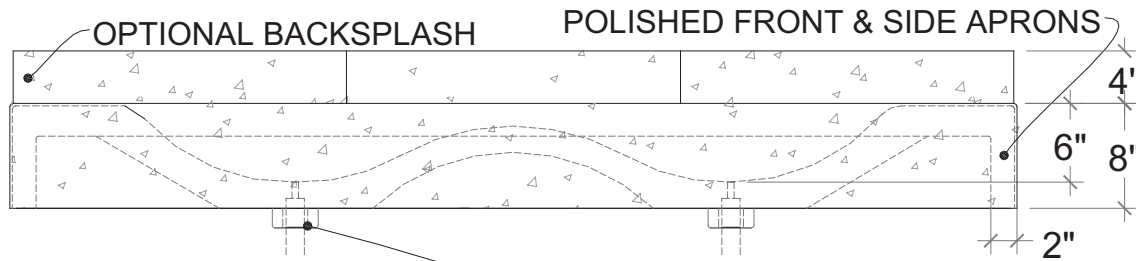

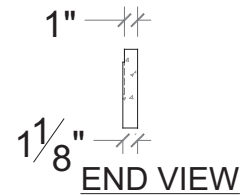

Sonoma Cast Stone also produces tiles, pavers, surrounds, and more.
