Tile • MetalCrete

• DESCRIPTION

Concrete is poured into laser cut stainless steel patterns to form these MetalCrete tiles. Patterns can be custom designed with special set up fees. The design above shows 16 variations on a theme of 64 squares.

Ideal for loft, industrial, contemporary and minimal design styles of interior design. Small quantities may be ordered as a random mix.

See "Squares" for similar tiles without the stainless steel facing.

For larger orders one may order any of the patterns from this selection for a full shipment. Numbered rows and lettered columns identify each design.

Refer to Tile Accessory page for pieces that compliment these tiles.

• FACTS

Tiles are faced with stainless steel embedded in Classic Concrete and are diamond-sanded and sealed.

24 standard colors. See: www.sonomastone.com, catalog or techbinder.

Custom colors available. Order samples online, or call 877-283-2400 x113.

Both the concrete and the metal are polished to a high luster.

Nucrete™ is not available at this time for this product.

Thin-set mortar can be used to install tiles to solid, level substrate.

May be ordered individually.
