## • DESCRIPTION

Pre-cast concrete tiles in two sizes to create a basket weave effect. The larger size tile (12" x 24") has squared edges on the long (24") sides and a slightly tapered profile on the short (12") ends.

This design allows the floor to look truly "woven" as the "waft" dives under the "warp." On a large area the look is of a stunning large weave.

This effect is difficult and expensive in stone, easy in Classic Concrete.

Sizes not available to be ordered individually.

## • FACTS

Tiles come in Classic Concrete in a mold release finish. As the term implies, tiles are "as is" when released from their molds. Tiles are not diamond sanded, sealed and waxed. Available as an option.

Tiles are currently not available stainless Nucrete™.

Available in 24 standard colors. Custom colors are available. For standard color chart, refer to catalog or visit our website. Samples may be ordered online, or by calling 877-283-2400 x113.

Tiles are unfinished and unsealed. Sealing by installer.

Thin-set mortar can be used to level substrate
