### • DESCRIPTION

Introduced at the San Francisco Designers Showcase, this Grid Fireplace Surround is very flexible to design alternations.

The grid can be 2", 3" or any evenly divided measurement that fills the required space.

The "cells" may be uniformly filled or cast in a random pattern that celebrates the light and shadows.

The color can be uniform or separate cells can be altered in a pattern or randomly. Inserts such as rocks, seashells or other collections may be inserted into the grid pattern.

Please fax drawings, concepts, and dimensions for a detailed estimate.

### • FACTS

Available in 24 standard colors. Custom colors are available. Available in Classic Concrete Mold Release: finish remains as is it when "released" from the molds. For standard color chart, refer to catalog or visit our website. Samples may be ordered online, or by calling 877-283-2400 x113.

For mounting applications, we recommend adhesive to level the substrate & plumb wall.

Height and Width are flexible as indicated. Minimum thickness of 2".

Weight varies by design.
